The Bosch series of Universal Monitor Mounts (UMM) are designed to mount any VESA®-compliant monitor to a wall, up to 12 kg (26.5 lb) in weight. The two types of mounts offered in the series of Universal Monitor Mounts (UMM) are the UMM-LW-20B and the UMM-LW-30B.

The ST660 wall mount is ideal for mounting a 32-inch to a 60-inch LCD screen to a wall. The one-touch tilt feature allows adjustment of ±15° without the use of tools.

Each mount comes in two pieces: a VESA®-compliant mounting plate that attaches to the monitor and a V-shaped wall bracket. Once both pieces of the mount are attached, the monitor slides into the V-shaped bracket on the wall, making installation quick and easy. A set screw secures the two sections of the mount together.

The RMK-08 rack mount is ideal for mounting 15-inch, 17-inch, or 19-inch UML LCD monitors. The one-touch tilt feature allows adjustment of ±35° without the use of tools.

The Bosch Universal Power Supply (UMP) is compatible with all Bosch LCD monitors up to 19 inches, and provides 12 VDC / 5.0 A output.
